Match Timeline
75 min. Goal U of A

COACH ASSESSMENT:

We moved the ball well at times but as we got tired looked to take an extra touch or dribble more instead of playing the simple pass. Individually players need to have better vision by scanning the field before receiving the ball so they know if they have space to turn or who they can play to with one or two touches. We had some great opportunities to finish and didn't test their keeper enough. We had 2 shots on goal the entire match which will typically not translate to goals. Focus and composure in the final third is key moving forward.

NOTABLE PERFORMANCES:

Keane Garcia: Keane came on and organized the defense while keeping the ball very well and stretching U of A with some great balls in behind.

Dustin Garcia: Dustin locked down his side of the pitch defensively and kept possession of the ball very well using his vision before receiving the ball.
