71 min. Will Hanson out; Kyler Houck in
79 min. Goal UDA- Jose Puente (PK)
81 min. Jose Puente out; Joaquin Villescascas in

COACH ASSESSMENT:

Wow!! What a team performance! This was a game of coming together as a unit and putting 99 minutes together as one, while playing for the guy next to you and every player that has helped us in the program. The crowd was amazing with an awesome atmosphere giving us a 12th man so a big thank you to the fans and the unrostered players. I am so proud of the team for making history being the first college team to win the 1st round of US Open Cup. We have gotten better as the weeks have gone on tactically in the 4-2-3-1. Players were interchanging positions, overlapping, and communicated very well throughout the match. We were switching the point of attack more than ever which caused PCRW problems. We still need to find combination play in the final third and get more numbers into the box when the ball goes wide for service. We will score more goals if we get numbers into the box so we can serve it. Great work getting yourselves into this position and now it's time to prepare for New Mexico United. NM United plays in Oakland at 8pm on 4/1/23.

NOTABLE PERFORMANCES:

Everyone played a role in this match and this was a TEAM notable performance. Keeping the shutout was very impressive and the communication stood out making the game easier for each other. The fans and the unrostered players are a part of this notable performance as well.
